SUBCHAPTER 4D. RECREATIONAL PARK TRAILERS

N.J.A.C. 5:23-4D

§ 5:23-4D.1 Scope

(a) This subchapter shall govern the design, manufacture and installation of recreational park trailers intended for installation in this State.

1. Recreational park trailers shall be installed on site using the anchoring system specified in the recreational park trailer subcode adopted in this subchapter. The recreational park trailer shall be anchored to withstand the local design wind load.

2. Any additions, decks, porches, roofs or modifications to a recreational park trailer shall be subject to the permit requirements of N.J.A.C. 5:23-2.14 and to the applicable requirements of the adopted subcodes. No addition or modification shall impose any additional structural loads on the recreational park trailer unless the plans and specifications, submitted pursuant to N.J.A.C. 5:23-2.14, demonstrate that the recreational park trailer is capable of accepting those additional loads. Additionally, no site-built construction shall have a roof height higher than that of the recreational park trailer unless the plans and specifications document that the recreational park trailer is capable of accepting any additional snow load.

3. Is certified by the manufacturer as complying with ANSI A119.5.

§ 5:23-4D.3 Standards

(a) Regulations concerning recreational park trailers are follows:
